Pigs

Have been around over 11,400 years.

One of the most numerous mammals on the planet

Over 1 billion are slaughtered each year.

Islam, Judaism and Buddhism forbid the eating of its meat.

Listed in the top 100 of the most damaging species.

They are Omnivorous meaning they eat both meat and plants.

Pigs have very small lungs, so they are susceptible to Bronchitis and Pneumonia.

One of the smartest mammals and is compared in intelligence to a dog.

Expecting mothers build a nest on the ground to give birth in.

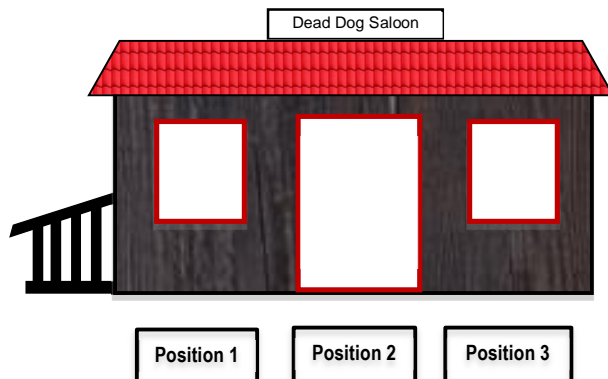

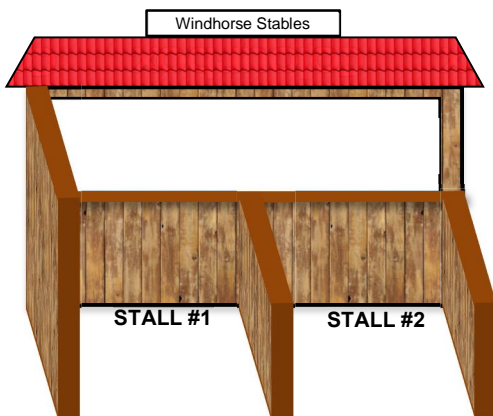

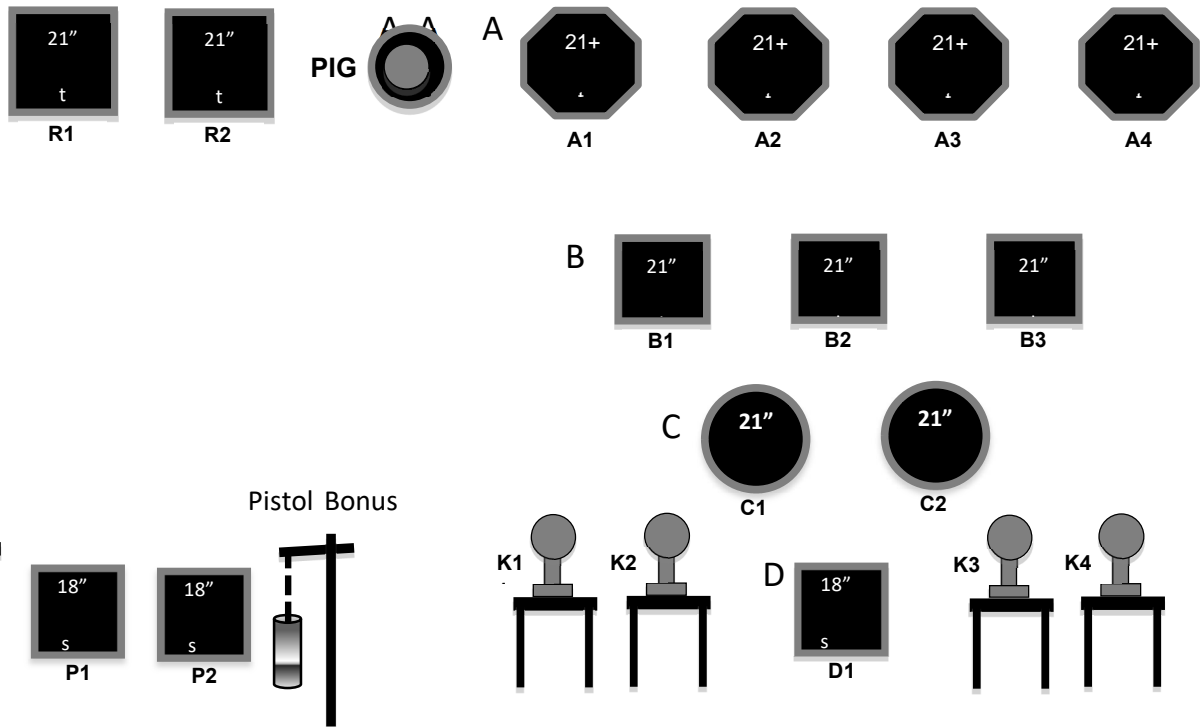

Mongoose, Honey badgers, Hedgehogs and Pigs have an antibody that keeps them safe from snake venom.

Was there ever a cattle drive, wagon train, prospector or cowpoke that set out without coffee, beans, and a side of bacon?
